ib) if so. hcwasens therefor; and

(c) what action has been taken during tho last three years for Setting up branches of Red CROSS: in various regions of the country?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WBLFARE (DR. C. : SILVERA.); (a) and (b) The Indian Refl 'Cross Society has a, branch in Arunachal pradesh How. ever, branches have not been constituted so far in Andaman and Nicobar and Lakshadweep because the required nunt-ber of members have not been entolled in these Union Territories

(c) The authoritios concerned have been requested to enrol the

New heart surgemy technfque

8174. SHRI K. M. KHAN; Will the PRIME MINISTER be pleased to statest

(a) whether Government's attention has been drawn to certain reports that appeared itt 'Delhi dailies on the 6th May, 1995 indicating that a radical new heart surgery has been performed at Sydney's St. Vincen's 'Hospital ;

(b) if so, the details thereof;

(c) whether Govenment propose to. study this technique of operation to explore the possilities of providing the" .same in the country; and

(d) if so. the details thereof and if not. the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (DR.C. SILVERA);(a) to (d) Yes, Sir. According to the information received it is ah operation which has been performed in advance cardicic centre for the last 10 years, although it still 'rernaine some what ex-perimental. It involves wrapping the heart in a muscle called the latissimue dorsi muscle (the muscle on the left side of the chest between the sibs) and stims-lating the muscle; with a pacingsidevice to make it assist the heart in its con-iraotions. It is a treatment for patients. with enlarged hearts and heart failure If improves sympioms quite duama tically. in most cases.

The operation takes 5-7 hours and it. is quite a major procedure and it is no. usd 'leaving, it uritill the patient is very. ill and around 80-90 per cent of the patients proced without event through

tha operation. The procedure is said to be free of some of the difficulties of cardiac transplantation in that one does not need a donor supply and the procedure is free of foreign organs and hence there is no rejection and no need for immunos uppressive drugs". This type of surgery is not entirely new and it is known as Dynamic Cardiomy-plasty. This techniques improves the functional class of the heart by 10 per cent to 20 per cent but does not .prcvide full recovery. It is understood that this surgery is being (performed at Escort Heart Institute and Research. Centre, New Delhi.
